Notice Troop 4

Meet at the church tomorrow night at 7 o'clock in uniform. 83t1p

The Lighting Educational committee, with headquarters in New York City, which committee is now conducting a nation-wide campaign for more efficient illumination in the homes, has effected through the cooperation of the West Penn Power company, an opportunity for all children in the Monongahela valley to participate in a 600-word Essay contest, the subject of which will, in a general way, be towards better home illumination.

The organization for conducting the local contest was formed yesterday in an all-day meeting at the office of the West Penn Power company of Charleroi, to cover the Monongahela valley region. Various sub-committees were organized at this meeting, the duties of which will embrace the presentation of the details of the contest to the children in the towns and cities in which the respective committees are located. These sub-committees will operate in Charleroi, Brownsville, Monessen, West Newton, Donora and Monongahela.

The remote purpose of this campaign is to improve the lighting efficiency of the average home, to indicate to the public the necessity of such improvement for the sake of the benefits to be derived therefrom by the owner and his family.

There is too little known regarding efficiency in the electrical illumination of the home and the result of this inefficiency is evident through defective vision, strain on the optic nerve centers, its effect on general health, etc.

A national advertising campaign is being conducted by the Lighting Educational committee through which the general public will learn in more minute detail, the awards of prizes in connection with this essay contest

CHURCH TO BURN ITS MORTGAGE ON TOMORROW

FIRST ACCIDENT OF THE SEASON

Accidentally wounded last evening by his brother, while they were hunting blackbirds, Eugene Jones, aged about 14 years, son of Samuel Jones, of near Braddock Station, is in the Washington hospital in an extremely critical condition. His condition was so serious that an operation was performed late last night.

shotgun shell entered his abdomen. He was rushed to the hospital in an ambulance but was extremely weak from loss of blood and the shock, although this morning it was said that he had withstood the ordeal of the operation as well as could be expected.

Eugene Jones and his brother, Paul, had left their home only a short time before the accident to hunt blackbirds. Paul had the weapon. As he was raising the gun to fire at some birds, he pulled the trigger and the shell was exploded directly at Eugene, who was in front of him and about 50 feet away.

An extremely ugly and dangerous wound was inflicted by the bird shot, which tore through the abdominal wall in considerable number. The brother summoned help immediately, and had the boy removed to his home.

Liquor Raid Is Made By A Constable

Andy Puk, a coal miner, who resides near Redds Mill in Fallowfield township, was arrested by Constable Ben Gibson of Monongahela yesterday afternoon. Puk is charged with the manufacture and possession of liquor.

Puk was taken to the office of Alderman R. L. Ellwood of Monongahela and pleaded guilty to the charges made against him. He was held in $1,000 bail for court trial.

Constable Gibson, armed with a warrant, visited the home of Puk, conducted a search which revealed a 10-gallon copper still with all attachments, a gallon of moonshine whisky and a quantity of mash. This evidence was produced against Puk at the hearing and the defendant admitted his guilt, albeit he stated that the whiskey was for his own use, and that he had never disposed of the product, either by sale or by gift

Special Sale of Pianos at Schroeder's

Fall or autumn, with its transition from the summer months and its attendant pleasantries, is here, and with the fall comes the social functions which are looked forward to with avidity on the part of the people of the community. Realizing that the public "breathes the soul of music," now that the salubrious days have come, the Schroeder Piano Company, with its accustomed foresight, has prepared for the season by putting in a new stock of pianos which they are offering in special sale at prices which, aside from the merit of the instruments, must recommend them to the buyers. Inclusive are grands, uprights, and player pianos.

This is an opportune time to buy a piano, in that with the opening of the schools the musical part of the student's career must be looked after; for, after all, a musical education is a corollary of an education proper, as music is a necessary adjunct. The Schroeder company, in installing its new pianos at this time, have obviated dangers which are incurred when placing pianos in

SLEUTHS TRY TO SOLVE JEWEL THEFT

Gigantic Robbery, In Which Two of Wealthiest Families of United States And England Suffer Loss of $150,000 In Gems

JEWELS STOLEN TUESDAY

American Lady Is the Greatest Loser—About $110,000 — No Great Progress Toward Solution of the Mystery Had Been Made Up to Today

Port Washington, L. I., N. Y., September 11—More than a score of private detectives were at work today on the Cosden-Mountbatten jewel robbery in which upwards of $150,000 in gems were stolen mysteriously from two of the wealthiest families of the United States and England.

The losers were Mrs J. C. Cosden, wife of the multi-millionaire head of the Cosden oil group, and Lady Mountbatten, British noblewoman who is a member of the Prince of Wales party.

So far as could be learned no great progress toward solution of the mystery had been made up to today, although the jewels were stolen early Tuesday from the palatial Cosden estate, the Cedars, near Port Washington.

Mrs. Cosden was the heaviest loser. The jewelry stolen from her was said to include:

A black pearl ring valued at $40,000.
Pink pearl ring, $25,000.
Diamond bracelet, $8,000.
Ruby bracelet, $5,000.
Pigeon blood ruby ring, $30,000.
Charm bracelet, $1,000.
Diamond bow knot pin, $400.

In addition Mr. Cosden lost a pearl stud, making the total loss to the oil family about $110,000. Lady Mountbatten's loss was only about $15,000.

A score of servants, 12 of them women, were questioned by detectives for Lloyd's the big London insurance firm, and detectives for an agency representing the Federal Insurance Co All the jewels were insured.

PROCLAMATION.

The President of the United States has designated Friday, September [illegible] National Defense Day, a day on which to make Mobilization tests of Regular Army, National Guards and Organized Reserve Units, a day for assembly and parades of military organizations, for patriotic music and addresses, and prayer for our National welfare; therefore I, J. B. Tussing, Burgess, in accordance with the wishes of our President, call upon all patriotic citizens of our Borough to take part in the demonstration and give such assistance as may be requested by the Citizens' Committee and the organizations to the end that we may depict the true conditions of our Army and our willingness and ability to mobilize in defense of our Country.

"COVERED WAGON" IS DRAWING BANNER CROWDS

The musical features aside from the picture is worth the admission, for Danny Harris and orchestra have attuned with the pictures settings commendably.

TRIALS OF MISMATED ARE AIRED IN COURT

Desertion and non-support cases were heard yesterday before both Judges James I. Brownson and Erwin Cummins. The court shortened the hearings materially by refusing to go into a lot of testimony that had no bearing on the support question.

William Burkett, of Wolftown, was directed to pay his wife $5 a week for support of his children and to give bond in the sum of $500 for the faithful performance of the order. Porter Hoxworth, of Canonsburg, was directed to pay his wife $8 a week for the support of herself and two minor children, Katherine, aged 10 years, and Ella, aged 7 years. He was put under bond to pay this sum.

Alonzo White, colored, of the Eighth ward, Washington, who has been in jail some time, by reason of failure to secure bail on the charge brought against him by his wife, was ordered to pay $5 a week for the support of their two children, William, aged two years, and Wilbert, aged eight months. Mr. and Mrs. White's troubles seemed to have been too much mother-in-law.

J. C. Mills of Canonsburg, was directed to pay $5 a week for the support of his wife and child.

David James, an elderly man, of Donora, charged by his wife with non-support, was directed to pay her $5 a week The wife is now living with a daughter in Pittsburgh, and is in poor health.

Bert Redman, colored, of Finleyville, who has been in jail, due to charges made by his wife, was released on his own recognizance, but he was directed to pay his wife $2 a week for the support of their child. It appears she left him and went to her mother's home in Pittsburgh. She would not consent to live with him again and until she does, the court told her she could get no support for herself.

J. Harry Ross, former member of the Washington police force, [illegible] ed by his brother-in-law, Gro[illegible] Lynch, with desertion of his [illegible] Mrs. Eunice Ross, and two minor children, was discharged at a hearing before Judge James I. Brownson yesterday. Ross has been in jail since July 14, being arrested soon after he had agreed to pay for support of the children, and was accused of defaulting in payment. On his promise to get a job and support his family, the court ordered his discharge.

High School Athletics Council Meets, Elects Officers, Arranges Its Foot Ball Schedule For 1924

On Tuesday evening a meeting of the Charleroi High School Athletic Council was held in the High School building. Besides reorganizing for the school year of 1924-1925, other important matters were brought up. The following officers were elected:

President, J. S. Russell; secretary and treasurer, D. W. Copeland; football manager, John Berryman; first assistant, Edwin Hindmarsh; second assistant, William Sutherland.

The football schedule for 1924 was adopted. The schedule is as follows:

September 27, Pennsylvania Training School, at home, pending.

October 4, Homestead High School, at home.

October 11, Rochester High School, at home.

October 18, Monessen High School, away.

October 25, open.

November 1, Waynesburg High School, away.

November 8, California High School, at home.

November 15, Clairton High School, at home, pending.

November 21, Monongahela High School, away.

November 27, Donora High School, away.

The price of season tickets, admitting holders to six home games, was fixed at two dollars and fifty cents, ($2.50) for adults and one dollar ($1) for students. As athletics are primarily a student activity it was felt that the student body should be allowed a more substantial reduction in the price of the season tickets.

An executive committee was appointed by the president to control expenditures and function in an advisory capacity. Dr. H. J. Repman was appointed squad physician for the coming season.

President Russell addressed the council and urged all the members to put forth their strongest efforts to make the coming season a success. He further requested the student members to use their influence in impressing upon the minds of the members of the squad that they must take their work seriously if Charleroi High school is to enjoy the success that favored them last season. This can be accomplished when every member of the squad realizes his obligation to his school and coach. Total disregard of training rules is a mark of insincerity and unwillingness on the part of the offender to do his duty toward his team, and it will not be permitted this season, win or lose.

Cuddy DeMarco To Box Freddie Stellmack Here On September 18

Under the auspices of the boxing committee of the Charleroi Elks club, another spectacular boxing exposition will be held at the Charleroi Baseball park on the evening of Thursday, September 18, when the card, which will be one of the best ever given here, will see Cuddy DeMarco try conclusions with Frankie Stellneck, of Cleveland, O., in the main bout, one of 10 rounds; in the semi-final, Judy Moraz of Charleroi will meet Eddie Bayne, Verona, and in the opening setto, Tom O'Mara, Donora, is matched to try his prowess in which Sam Enders, Monessen, will dispute his assertion as the best for fistianic honors. These men will meet in the heavyweight class, both to tip the beam at 175 pounds.

"Jim" Buchanan left last night for Waterbury, Conn., having in charge Tony Norman who, on Monday evening, September 15, will fight Emil Paluso in what will prove to be without doubt, a stirring semi-final. In the main bout Kid Kaplan will meet Lou Palusa.

BABE ADAMS TWIRLS PIRATES TO VICTORY ST. LOUIS YESTERDAY

Bill McKechnie's boys rubbed their eyes at St. Louis yesterday afternoon and decided to awaken from their slumber after losing four straight games. Accordingly they took the scalps of the Cardinals to the tune of 3 to 1, although in order to accomplish this victory, they were required to come up from the rear.

Babe Adams and Jess Haines fought a right-hand pitching battle in which the St. Louis moundsman held a tight rein in the early rounds, but his delivery finally was solved and altogether he was touched up for 10 safeties. Incidentally he passed six batsmen, but none of these free tickets proved costly.

Adams on the other hand did some brilliant hurling and held the enemy to five hits. He gave but one base on balls, this being in the second inning, to Mike Gonzales. The only run made off his delivery, was not earned, it being due to a fielding error by Glenn Wright.

Babe got better as he breezed along and from the fourth to the eighth inclusive, not a Cardinal reached the aisles. He permitted a single in the ninth with one out.

Have you looked over the Want Column today? It will pay you.

WILLS AND FIRPO ARE BOTH ON EDGE FOR BATTLE TONIGHT

The Wild Bull, primed for his mighty charge, and the Brown Panther, crouched for his spring, are ready for the call that will send them into action.

These giant fistic rivals and leading aspirants for title honors—Luis Angel Firpo, pride of the Argentine, and Harry Wills, greatest of present-day negro heavyweights—will match their stamina and punching power in the outstanding ring battle of the year.

They are matched for 12 rounds in Boyle's Thirty Acres, the big pine bowl in Jersey City, where Firpo halted last year the comeback of Jess Willard, and where many a spectacular ring drama has been enacted since the wooden saucer first was the scene of the historic Dempsey-Carpentier fray three years ago.

The eve of the fight which has attracted scarcely less interest than a title battle, found Firpo a slight favorite among expert observers and in betting circles. The Argentine's greater ruggedness and hitting, a majority of critics believed, would carry him to triumph over the superior defensive skill and greater experience of Wills. Based on these views, many large wagers were reported, with the South American slightly the favorite, but the giant negro was not lacking in financial support and even money may prevail by the time the gladiators climb into the ring tonight.

THIS WOMAN RELIEVED FROM SUFFERING
By Lydia E. Pinkham's Vegetable Compound. A Remarkable Story
Dover, Del.—"I wish every woman would take your wonderful medicine as it has done so much good to me. I had cramps and faint spells and very bad pains. One day I was over to my neighbor's house and she told me I ought to take Lydia E. Pinkham's Vegetable Compound. So I went to the store on my way home and got a bottle, and took the first dose before supper. I have been taking it ever since, and you can hardly believe how different I feel. I had just wanted to lie in bed all the time, and when I started to brush up I would give out in about ten minutes. So you know how badly I felt. I used to go to bed at eight and get up at seven, still tired. Now I can work all day and stay up until eleven, and feel all right all the time. My housework is all I do in summer, but in winter I work in a factory. I have told a good many of my friends, and I have had three come to me and tell me they wouldn't do without the Vegetable Compound."—Mrs. SAMUEL MURPHY, 219 Cecil St., Dover, Delaware.

APROPOS THE VERDICT.

Apropos the verdict of Judge John R. Caverly in the case of the youthful Chicago murderers, the question arises what will be the moral effect on callous youth teeming with sensational motives and ideas to do something that will gain for them the public gaze and limelight, however unsavory it may be? Would the moral effect of their hanging be greater than sentence imposed?

It is to be hoped in any event that [illegible] be deleterious on the youth of the land. Let us hope that they will not cogitate on their fate in the light of heroes or martyrs in any sense of the word, but rather may they look upon their deed with the abhorrence which it deserves. Let us hope the sons of the rich may gain inspiration for the better things of life in the fate of these callous youths, whose lives were ruined, partly at least, because they have never learned life's true lesson, and this is honor and its accompaniment, integrity. Let us hope that the youth of the land will now become more deeply imbued with the standard of right, and the fact that it never has, nor never will pay, to follow the highway of error. For, in the words of the poet, "Truth crushed to earth will rise again; the eternal years of God are hers; but error, wounded writhes in pain, and dies in the midst of her worshipers."

The moral stigma of the murder of the Chicago boy cannot be wiped out by the callous youth who deliberately planned and executed it, by their spending the balance of their worthless lives in prison; it will not restore the dead to those who are so sadly bereft; and the only hope in the case from a humanitarian standpoint is, that it may check wayward youth whose proclivities are for those things which mean for them eternal destruction.

"Politics" is pretty badly mixed not only in Montana, where Senator Wheeler is supporting Senator Walsh on the Democratic ticket while serving as running mate on the La Follette ticket, but in Kentucky, where the Courier-Journal is supporting Davis for President yet determinedly opposing the re-election of Stanley, the Democratic Senatorial nominee.

Philadelphia newspapers speak of the "newest graft"—night arrests of automobile drivers on the charge of intoxication when they are quite sober, policemen taking advantage of the fact that "most men will pay liberally" to get away and avoid further trouble, even though innocent.

The old saying that doctors disagree applies with especial force to the representatives of the medical profession called alienists. In the Leopold-Loeb murder case both the defense and the State are amply supplied with alienists who flatly contradict each other.

Lo the poor farmer. In Pennsylvania 72 per cent of the farmers own automobiles, which, at the moderate average of $500 apiece, represent an investment of $72,750,000 and the annual cost of their maintenance is figured at $43,632,000.

Trade knows no sentiment. France has a shortage of wheat but is not buying from the United States, Canada or Argentina. It is getting the cheapest wheat on the market from Germany, which is reported to be abundantly supplied.

The prospects for wheat, corn and oats are much better than reported early in the summer. There is also much improvement in the cotton outlook, the crop being now estimated from 12 to 13 million bales.

The prediction that the woman vote would decide the election is said to have caused inquiry as to which party is provided with the handsomest candidate.

Business and politics often disregard each other. In spite of resentment due to our recent immigration law Japan has not hesitated to borrow $22,000,000 in New York.

LETS HAVE MORE CIVIC PRIDE AND LESS LONGING FOR THE DAY WHEN WE WILL HAVE MONEY ENOUGH TO MOVE TO A BIG CITY! I HEAR THE BIG CITIES ARE FULL OF FOLKS WHO ARE SAVING THEIR COIN SO THEY CAN MOVE OUT AND LIVE IN A SMALL TOWN IN THE COUNTRY!
CHARLES SUGHROE

THE OFFICE CAT

President Faunce, of Brown University, says that a hundred million people running around like myriads of insects on an anthill does not constitute either a democracy or a kingdom of heaven. Quite true, but most people believe the world owes them a living, so they have to run around to collect it.

I WONDER

Why it is that only bald-headed men sit in the club windows?

Why a woman can never read a newspaper without putting it down inside out?

Why people in a railway train invariably smile when they see a baby?

Why a man always strikes a match toward him and a woman away from her?

We see a great deal of your husband these days, it is reported a neighbor recently wrote to a Charleroi woman who is visiting away from home. The Charleroi woman is said to have written back to her husband and told him for goodness sake to be more careful about pulling down the shades.

This would be a wonderful world if as many people in it had soft hearts as have soft heads.

A diplomat is a man who can use complimentary adjectives when cuss words are struggling for utterance.

Jones—It would make a much better picture, young man, if you put your hand on your father's shoulder.

Dad—Huh. It would be more natural if he had his hand in my pocket.

A man complained that advertising ruined his business. When a friend asked him to explain, he replied sadly, "I let my competitor do the advertising."

As an indication of the forward march of progress, not the fact that it is several weeks since we have heard anybody saying, "Yes, we have no bananas."

A great boom is expected in the whitewashing business this summer—particularly in the District of Columbia.

A BIT SHADY.

"Have you any shades?" inquired the customer.

"All sorts of shades," replied the dealer.

"I need some for summer."

"Shades to create a grateful shade in summer?" continued the dealer. "How do you like this shade of shade?"

"This shade of shade will shade the room nicely, but I don't like the price. Show me a shade, a shade lower."

He who laughs last laughs least, and he who laughs first usually has a complete set of gold teeth.

DRUNK AGAIN.

Roses are blue,
Violets are red—
Too much home brew
Sure goes to the head.

Clerk—Well, madam, did the corn plasters give you any relief?

Old Lady—Can't say they did. I [illegible] I could hardly chew it.

Spanish Troops Charge and Capture Loma From Moors

Spain's everlasting war against Riff tribes in Morocco is causing much unrest in Europe as well as dissension and rebellious rumblings at home. Abandonment of the campaign is being considered. This photo, the latest from the battlefront, shows Spanish troops making an attack on Loma, which they eventually took, under cover of artillery fire directed on Riff fortifications.

Two Welcome Moons

The full moon nearest to September 21 is popularly known as the "harvest moon." The moon at that time rises for several consecutive evenings at nearly the same hour, giving an unusual number of moonlight evenings. This is most noticeable in the higher latitudes and quite disappears at the equator. The "hunting moon" is the first full moon following the harvest moon.

Only Proof of Power

The man who is worthy of being a leader of men will never complain of the stupidity of his helpers, of the ingratitude of mankind nor the inappreciation of the public. These things are all a part of the great game of life, and to meet them and not go down before them in discouragement and defeat is the final proof of power.—Elbert Hubbard.

Monsters of the Deep

Swarming in tropical waters, are rays (or sea-bats) up to two tons or more in weight sharks, some of them over 30 feet in length, and sawfish weighing up to two and three-quarter tons and over 30 feet in length, living evidence that the fish life of the Mesozoic period still exists in the ocean.

Schools in Early Days

The first schools were started in the early history of mankind. Schools were first held out of doors and the teaching was conducted orally, similar to the Hindu Brahman schools. Among the Hebrews the laws were expounded by oral teaching from the porches of the temples. The amount of instruction greatly increased from the mere oral teaching of the law until it involved letters and arithmetic. Among the Spartans the education was almost entirely along new lines. Elementary schools became common after the Christian era and in 64 A. D. they were made obligatory. In Athens nearly all of the schools were private, teaching music and literature, reading, writing, arithmetic, geography and drawing. In early Rome the schools taught reading and writing and sometimes arithmetic.

Somali Fond of Song

Musical instruments—even the tomtom, so dear to the heart of most African natives—are unknown to the Somali, who, none the less, take great pleasure in singing and dancing. Their songs are not by any means casual chants but have special significance, and are applicable to certain occasions. For example, there is a "Song of Thanksgiving for the finding of water, after a long journey," and songs for the loading and unloading of caravans, but most of their music is of a religious nature; and there is a "Song of Burial," sung when the 20 foot mound is raised above the remains of a chief and fenced around with a strong palisade of logs placed transversely between stout posts. Of all their dances the Somali place the war dance first.

Gave the Game Away

Among the side shows there was a collection of "freaks"—armless wonders, living skeletons, fat women and so forth, according to a story told by Charles B. Cochran. About the best draw of the lot was the bearded lady. One day the regular attendant who collected the admission money was temporarily absent, his place being taken by a little girl. A gentleman who had been deeply interested in this particular freak of nature remarked casually to the child as he was passing out: "I suppose, my dear, that the lady inside is your mother?"

"Oh, no sir!" the little girl replied, momentarily taken off her guard by the unexpected query, "She's my dad!"

NUXATED IRON
Helps make rich, red blood and revitalize weak nerves

WEAK NERVES AND THIN BLOOD

RUIN HEALTH OF THOUSANDS WITHOUT THEIR EVER SUSPECTING THE REAL CAUSE OF THEIR TROUBLE—IRON STARVATION

An enormous number of people who ought to be strong, vigorous and in the prime of life are constantly complaining of weak nerves, headaches, pains across the back, disturbed digestion, shortness of breath, palpitation of the heart, a general "run-down" condition, melancholy, bad memory, etc., all as a result of iron starvation of the blood.

There are 30,000,000,000,000 red blood corpuscles in your blood and each one must have iron. Without iron your blood also loses its power to change food into living cells and tissue, and nothing you eat does you the proper amount of good—you do not get the full strength out of it and as a consequence you become physically weakened both in body and mind.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach, because it is organic iron like the iron in your blood and like the iron in spinach, lentils, and apples and not metallic iron which people usually take. Your money will be refunded by the manufacturers if you do not obtain satisfactory results. Beware of substitutes. Look for the word "Nuxated" on every package and the letters N. I. on every tablet. Sold by all druggists.

"And Then--

—the day came when I found Blue Ribbon. It was just like one of those cool delightful little inns I used to seek out high up in the Swiss Alps after a long day's tramp. How restful! How delicious that bit of cheese and that draught from the cool spring, and how wonderful that clean white bed—and the mountain breeze."—

CROWE DETERMINED MURDERERS SPEND LIVES IN PRISON

Chicago, Sept. 11—State's Attorney Robert E. Crowe already has started his fight to make certain that Nathan Leopold and Richard Loeb spend the rest of their lives in the penitentiary.

Crowe is preparing a complete review of the case to be sent with the prisoners to the state penitentiary at Joliet. He calls it a "statement of fact" and hopes that it will form a record so secure that no pardon or parole board at any time in the future will release the young slayers from the penitentiary.

In addition, Crowe will send all of the "people's exhibits"—all the evidence he presented during the murder hearing before Chief Justice John R. Caverly.

"We want to make the record clear and clean," the state's attorney told the United Press, "so that no efforts of the defense will succeed in setting these murderers free."

"The state's attorney presented an air-tight case that should have resulted in hangings. The court decided otherwise and now the responsibility lies in other hands than mine. Since they cannot be hanged, I trust they shall never be freed from prison."

HORSE AND MERRY-GO-ROUND WOE FOR AN OWNER

New York, September 11—A horse attached to a small merry-go-round was inspired to dance by the music issuing from his burden. Louis Greci, one of the owners, is in a hospital with both legs broken.

The bride was very pretty in a gown of white brocaded plush velvet trimmed with georgette crepe and she wore a flowered tulle veil held in place by a wreath of orange blossoms. She carried white tea roses showered with lillies of the valley. Her veil was carried by two small flower girls Edith Gabran and Threasa Russalo wearing pink georgette. Their flowers were pink roses. The maid of honor, Miss Josephine Gabran, and bridesmaids, Misses Geraldine Ross and Anne Roman, wore yellow satin and head bands of yellow ribbon. Their flowers were yellow tea roses. Ulysses Cruse, brother of the groom served as best man, while Cyril Brazile and Cyril Buttaglen, acted as ushers. Miss Ruth High sang "O Promise Me" during the ceremony, very beautifully. A new all-weather sports fabric for coats has been given the expressive name of "Shaggona." It has a shaggy appearance and is very effective in this straight, wrap-around coat with fur collar and cuffs.

Began Enormous Industry

The manufacture of shoes in what is now the United States was begun in 1629 by Thomas Beard, who came over on the Mayflower on its third voyage and brought hides for making shoes. Seven years later Philip Kertland of Buckinghamshire began making shoes in Lynn, Mass. Since that [illegible] come to lead the world in the manufacture of boots and shoes.

I'm Sorry

"Got a Baltimore paper?" a man asked impatiently. The young fellow at the "home-town newspaper" stand shook his head. "No, I haven't. I'm sorry." The man's face lost its irritable frown. "Can't keep everything on hand all the time, can you?" he admitted good-naturedly. Odd how those two courteous little words can smooth things out.—Chicago Post.

Romantic Hoot Gibson in his stirring wild west drama closed the first three days of the week at the Palace last night, and tonight there is an entire change of program.

The pictures at the Palace are ever of a highclass nature, which amplified by the sterling vaudeville, combine to make a bill at this popular theatre sufficient to draw record-breaking crowds nightly. The offerings this week—the second of the fall season—found a bill which pleased the large clientage of the playhouse, and the bill this evening will no: be seconddary to taht of the preceding evenings of the week.

BIRDS COO; DISTURB IN CHURCH; TO BE SHOT

Yonkers, N. J. Sept 11—Finla Blachard, a restaurant owner, has obtained a pigeon concession empowering him to shoot the hundred or more birds which have been nesting in the steeple of the First Methodist Church. Cooing interrupted the religious services and Blanchard offered to make pies of the birds.

MAGIC SPELL A RTIST FAILS; WIDOW OUT $7,000

New York, Sept. 11.—Mrs. Rosa Spezano, widow, employed a witch in the hope of saving her husband. Incantations were successful only in relieving her of $7,000 which she paid in fees. Police arrested Mrs. Marie Consifia, who "cast the magic spell."

Famous Stone of the Czars Out of "Hock"

Nice, France.—The famous 43-carat sapphire blue diamond once belonging to Emperor Nicholas of Russia, has been taken out of the municipal pawnshop here, where it has been held for three years as security for a loan of 200,000 francs borrowed by Mlle. Suzanne Thuillier, to whom Nicholas is said to have given it.

Mlle. Thuillier came to France from Russia with nothing but the stone and once she had pawned it she was unable to get it out because creditors with claims aggregating 2,000,000 francs thought the diamond was safer in the pawnshop.

Finally a Nice jeweler financed Mlle. Thuillier and she took out the stone, for which she is said to have just refused 10,000,000 francs. The stone is declared by jewelers to have come from a Buddha in a Hindu temple a thousand years ago.

New U. S. Airship Queen of the Clouds

SPECIAL SALE OF PIANOS AT SCHROEDER'S

(Continued from First Page)

their store under adverse weather conditions; the instruments are in good tune and in first class shape for inspection and demonstration.

In the instruction of the student in music the importance of having a good piano cannot be overestimated. The Schroeder Piano Company carries only instruments that carry weight as to their tonal qualities and touch. A student cannot learn to play properly on a poor instrument; the only safeguard is a piano of established reputation such as the Schroeder Piano Company carries.

Visiting the establishment yesterday, we found that the display is even larger and more beautiful than ever—the finest in fact of any that can be seen in a music store between Pittsburgh and Philadelphia. The list includes the world-renowned Kurtzmann, the Brambash, Schroeder Bros. and other fine pianos. The company has not been careless either in its selection of players for it has the best, including the Kurtzmann, McPhail, Hazelton, Schroeder Bros., the Autopiano, and others.

The Schroeder Piano Company is known throughout the valley as being synonymous of the best in music. In this special sale is the public's opportunity. No further attestation of the company's responsibility is needed than to review the progress it has made during the eight years of its existence here. George B. Day, the general manager, inaugurated the business in a small way, and under his capable jurisdiction, in which he has been ably assisted by Miss Callie E. Bell, assistant manager, who has also been with the company since its inception here, the business has grown by such leaps and bounds to make it necessary to utilize one of the largest and most commodious buildings in the borough in which to transact its great business, builded as it has been on the corner-stones of integrity, truth, justice and honor—capsheafs for the success of any commercial undertaking. 83t1*

Nation's "Battle Month"

April has been called our battle month because in April many of our military operations began. Notable among them are: Battle of Lexington, April 19, 1775; Black Hawk war, April 26, 1832; war with Mexico, April 15, 1846; Civil war, April 15, 1861; war with Spain, April 21, 1898; World war, April 6, 1917.

Society's Outcast

The word "pariah" is used to mean an outcast or one despised by society. This is not what the word meant originally, since pariah was not an outcast nor the lowest in caste rank, but a member of a low caste in southern India and Burma, just below Sudra rank.

Conviction Unchanged

ONE WAY TO PREVENT WAR; JOHN R. QUINN

(John R. Quinn in The Outlook).

The one goal which the American Legion has not yet reached is the passage of a universal draft act. But let me say in passing that the Legion will never rest content until such a law is upon the statute-books of the nation.

The universal ddraft act is the Legion's effort to put war on an equable basis of sacrifice. In 1917 we saw one man drafted at thirty dollars a month to risk his life. We saw an equally good potential soldier get fifteen dollars a day for fabricating the rifle that the soldier used. And the manufacturer who owned the plant might be making $1,500 a day. This was manifestly unjust. To put the matter bluntly, the ex-service men who comprise the Legion believe that modern war has developed a modern form of loot—the money to be made out of buying low and selling high to a government desperately in need.

Wars are no longer fought between professional armies—but are wars between peoples; whole nations are involved. Such being the case, no one group of people should make the sacrifice to save all the people. If all the nation benefits, all the nation should share the sacrifices equally. The Legion's resolution declared that "all" the men, "all" the money, and "all" the material should be subject to draft by the nation in times of emergency without profit. Hence a soldier getting thirty dollars a month knows that a shipyard worker is not getting thirty dollars a day; and that the manufacturer is not getting any more proportionately.

This program is part of the Legion's contribution to the effort to prevent wars; for I am of the opinion that if you take out of the lottery of war its biggest prize—money—then you have removed a cause of war. The bill for a universal draft now before both branches of Congress was drafted practically in its entirety by the Legion; and in spite of the opposition of some elements of business and industry, we shall never stop fighting for it until it becomes a law.

We also wish to thank those who so kindly contributed the use of their cars and those who expressed their sympathy and friendship by the beautiful floral tributes.
